

Application to Use Electronic Resources Perth Bible College

Perth Bible College provides students and those living on campus with access to a number of electronic resources. In order to use these resources, you need to obtain a user name and password from the reception area.

PBC undertakes to supply:

- A student email account (@student.pbc.wa.edu.au)
- Access to broadband Internet in the library
- Storage space on the student server (H:)
- Wireless access to the Perth Bible College network (includes Internet access)
- Access to general computer software, such as word processing
- Access to specialised research software
- Access to printing facilities
- Access to the Perth Bible College Library System

Each user must undertake to be responsible for what their computer account is used for. In particular, users should note that they:

- May not visit sites that are contrary to the Christian ethos of the College, such as sites dealing in pornography or gambling. The College maintains the right to black list such sites, and may log attempts to access them. If students need to access a blocked site in order to complete course work/assignments, then they may seek permission to have the block lifted.
- May not use any College computers to commit illegal activities. Such activities include (but are not limited to) downloading illegal (pirated) music, video or software.
- May not attempt to access material that is not theirs. In particular, students may not attempt to access staff resources, unless explicit permission is obtained from a member of staff.
- May not install software on any computer in the college without the express permission of a member of staff.
- Are required to log out of their machine whenever they are not using it, as they may be held liable for any breach of these conditions made in their absence.
- May not attempt to bypass any securing restrictions placed on the computers.
- Are entirely responsible for keeping a backup of all their work. The College cannot *guarantee* to restore any data from backups.
- Are required to remove all files that they have placed on their **H** drive prior to their leaving the College. For visitors who come to the College regularly, PBC may, at their discretion, offer to waive this requirement.
- May not store digital music or video on PBC computers, unless they own the intellectual copyright on the material.
- Should not abuse the resources provided by the college — including excess Internet usage. Where possible, users are requested to schedule (very) large download for between 2am and 10am. Information on how to do this can be obtained from the computer technician.

Further, users must agree that PBC has the right to:

- Access visitor accounts for purposes of maintenance.
- Monitor the Internet activity of all visitors for any breach of these conditions.
- Monitor the files placed by a visitor on any PBC computer for any breach of these conditions.
- Revoke a visitor's account(s) at their discretion.

PBC seeks to respect the privacy of all visitors, and **will** make an effort not to access any personal material unless it is clearly in breach of these conditions.

I, _____, agree to the above conditions of use.
